

## Advanced Training in Web & Java Technologies

C-DAC Mumbai successfully conducted a specialized training programme on Web Technologies and Advanced Java for the officers of Export Credit Guarantee Corporation of India (ECGC), Mumbai, from August 11<sup>th</sup> - 25<sup>th</sup>, 2025.

The sessions were delivered by C-DAC Mumbai's faculty members:

- ▲ Dr. Kiran Waghmare, Program Manager
- ▲ Shri. Malkeet Singh, Module Lead & Coordinator ECG Training
- ▲ Shri. Vipul Tembulwar, Faculty
- ▲ Shri. Shilbhushan Khanderao, Project Associate

The training covered Web Application Basics, Java EE Fundamentals, Servlets, Spring Framework, Spring Boot, JDBC, Thymeleaf, RESTful Web Services, Messaging, and Testing, combining theory with practical demonstrations. To strengthen learning outcomes, assessment tests were conducted at regular intervals, helping participants consolidate concepts and track their progress.

Participants actively engaged throughout the programme, appreciating the in-depth technical knowledge, hands-on coding exercises, and industry-relevant examples shared by the trainers. The sessions were interactive, ensuring that participants gained both conceptual clarity and practical insights. The programme concluded with highly positive feedback from participants.
