Sumit Sharma

Full Stack | Java | Spring Boot | Microservices | Angular | React |
Project Engineer in CDAC New Delhi
New Delhi, Delhi, India

Summary

As an experienced Java developer with a passion for building robust applications, I have extensive expertise in Spring Boot, microservices, React, and AWS. With a strong foundation in both front-end and back-end development, I bring a unique perspective to projects, allowing me to seamlessly integrate the two and create highly efficient and scalable solutions. My ability to write clean, maintainable, and high-quality code has helped me successfully deliver projects on time, while also ensuring a seamless user experience. My continuous learning and professional development keep me up-to-date with the latest technologies and trends, ensuring that I am always equipped to solve complex business problems. Whether working independently or collaboratively, I am a reliable team player who values clear communication and thrives in dynamic, fast-paced environments.
